Authorization for this examiner's amendment was given in a telephone interview with J. Michael Dixon on January 15, 2009.

Art Unit: 1626

Delete the illustration

on page 111 of the

specification.

Delete the paragraph "As shown in the diagram below, the product of Example 1 was active at concentrations of both 1% and 4%. Anagen was initiated in each of the test groups prior to its occurrence in the control group" on page 110, lines 20-22 of the specification.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The invention relates to a compound having the Formula

wherein all variables are defined in

claim 1. The closest prior art is Steiner, et al. (US 2004/0087557 A1) The compound having the above Formula is neither taught nor suggested by the prior art. The Examiner wants to note that the deletion of the illustration on page 111 of the specification does not impact the patentability of claims 1-4, 6, 9 and 13-23.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
